

# Geoma Spotters Pro / Pro-ED

Geoma Pro 82S with GLH-48 Zoom (20-60x)

Geoma Pro-ED 82A with GLH-48 Zoom (20-60x)

## Refined Optics Spotting Scopes

Geoma Pro and Pro-ED Series spotters incorporate refined optics for clear views and high-resolution images. Available in straight and angled viewing styles with GLH-48 Zoom eyepiece. All **Geoma Pro** and **Pro-ED** spotters incorporate the following features:

- **Waterproof (Nitrogen filled), lightweight and durable fiber glass body**
- **Fully Multi-coated optics on all air to glass surfaces**
- **Dual focus with micro-movement fine focus · Sliding lens shade · Aiming sight**
- **Tripod adapter block with rotation mechanism for different viewing angles**
- **Long eye-relief GLH-48 zoom eyepiece with twist-up eyecup**

## Vixen's Flagship Spotter

**Geoma Pro-ED** series adds extra-low dispersion glass for excellent color correction to the refined optics and crystal clear views of the regular Geoma Pro product.

Spotters are available with **67mm** or **82mm** objectives in **Angled** or **Straight** bodies
